

RISK ASSESSMENT

Risk Assessment Training for Private Practice Owners

Virtual & In-person options available

Feel prepared in the event a client's safety is in question. Our comprehensive 60 minute training will help you:

- Establish a protocol for when clients express suicidal ideation in a session
- Identify verbal/behavioral triggers for risk assessment
- Develop language to assess for Suicidal Ideation
- Gain confidence in safety planning
- Receive templates for assessment questions & safety plan based on latest research

This training is suitable for licensed therapists and interns.
